## Upgrading the Pacific Highway

### Bonville upgrade

*This project is jointly funded by the Australian and New South Wales governments*

The NSW Roads and Traffic Authority has engaged Abigroup Contractors Pty Ltd to undertake the design, construction and 10-year maintenance of the 9.6km Pacific Highway upgrade at Bonville.

#### **Construction activities – January to March 2008**

Works are now underway along the entire length of the Bonville upgrade including all local roads. Works include:

- Continuing earthworks south of Pine Creek.
- Continuing concrete pavement on all areas of the main alignment.
- Continuing saw cutting of concrete pavement.
- Finishing works will be underway along the entire alignment.
- All bridgeworks are underway with ongoing girder erection and the pouring of piers, abutments and decks.

#### **Changes to traffic conditions**

**Pacific Highway traffic switch** – On 17 December 2007, traffic at the southern end of the Bonville upgrade, from Overhead Bridge Road to Sid Burke rest area, was diverted along a section of the service road adjacent to the Pacific Highway.

**Archville Station Road overbridge** was opened to local traffic in December 2007.

It is expected that traffic will be diverted from the current sidetrack arrangements on local roads over the new bridges over the main alignment as follows:

**Bonville Station Road – February 2008**

**Williams Road – February 2008**

#### **Safety**

Please observe all project signage and traffic control directions during construction.

#### **Construction hours**

Monday to Friday 7am to 6pm and Saturday 8am to 1pm. Nearby residents will be advised of any construction works occurring outside normal working hours.
